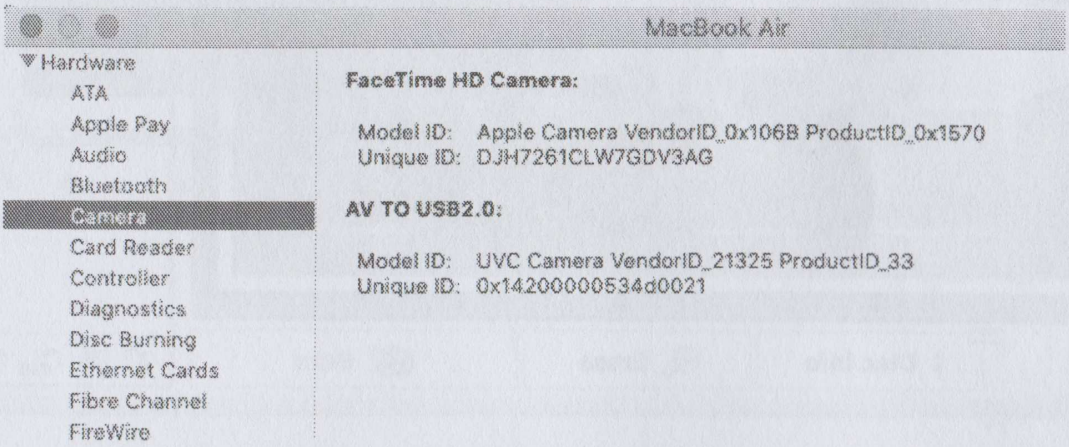
BR117 Manuel de l'Utilisateur pour Mac

1. Connectez l'USB Video Grabber à un port USB de votre ordinateur, après un certain temps, le matériel sera installé sur votre ordinateur.

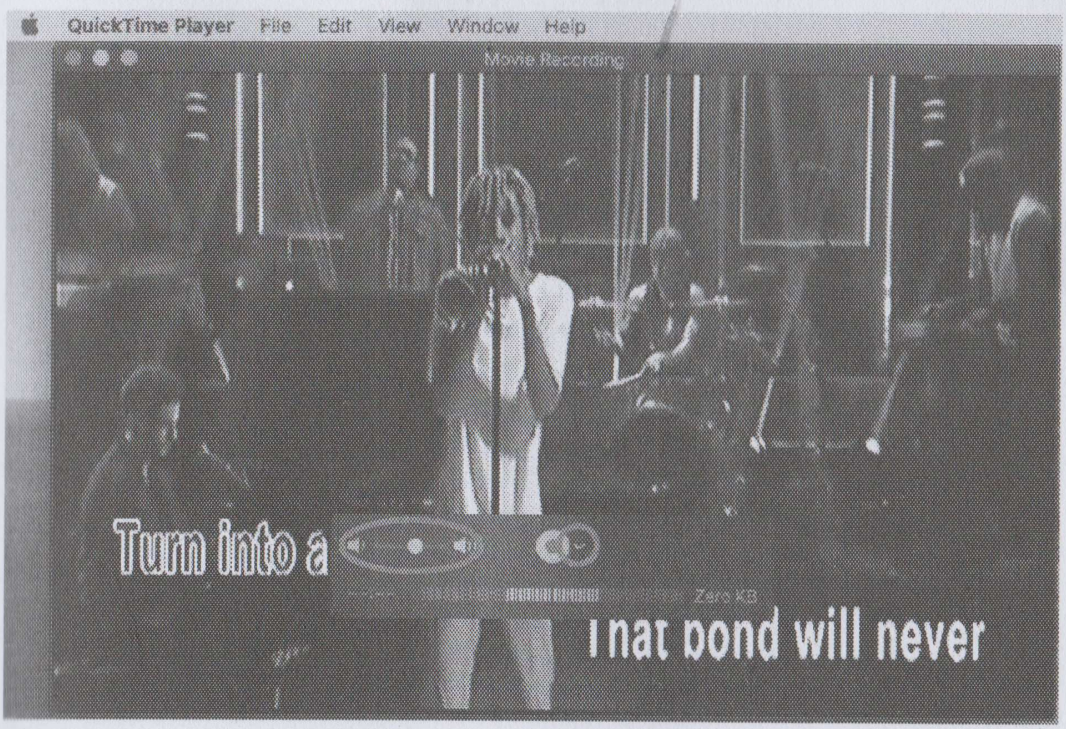
   Vous devez maintenant vérifier que les pilotes sont installés correctement.

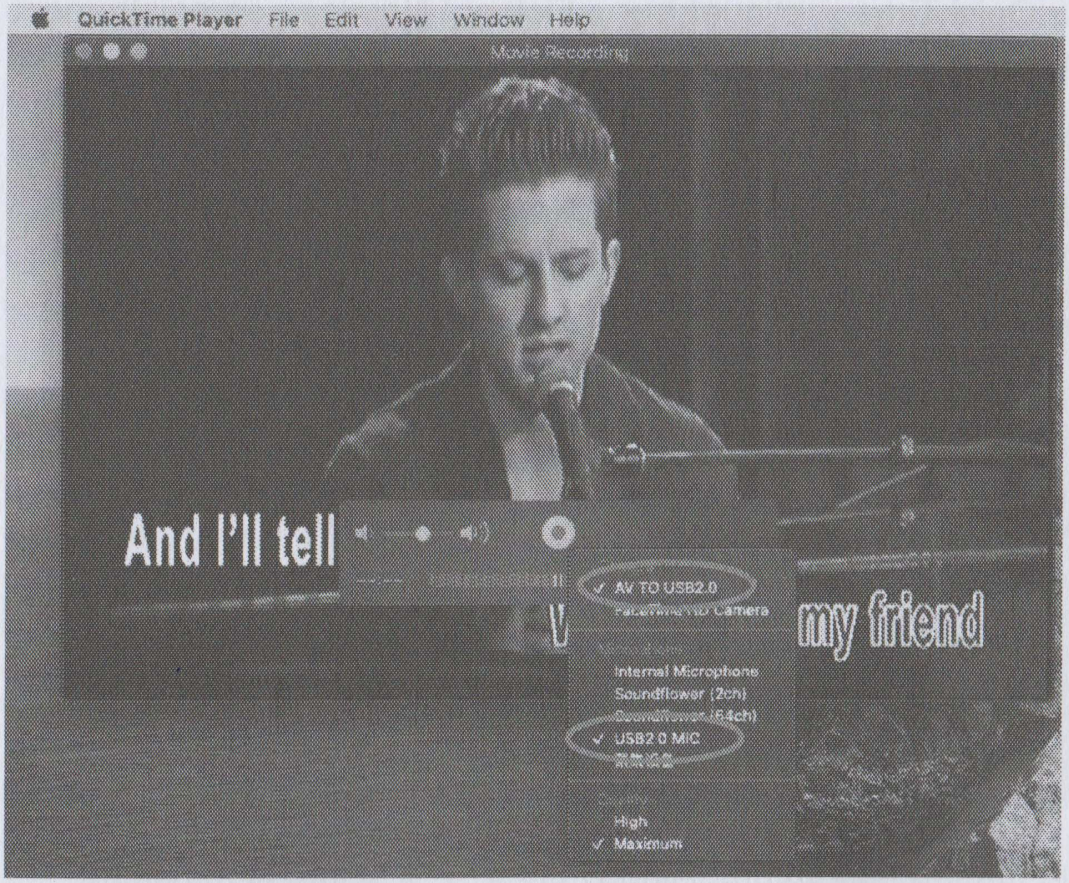
   S'il vous plaît aller à « Apple logo » \ « A propos de ce Mac » \ « System Report » \ « matériel » \ « Audio » et « Apple logo » \ « A propos de ce Mac » \ « System Report » \ « matériel » \ « appareil photo » . Si le pilote est correctement installé, vous devriez voir le « AV TO USB 2.0 » et « USB 2.0 MIC ». Dans le cas contraire, cela signifie que le pilote est pas installé correctement. Vous devez supprimer le pilote et débranchez le câble USB Video Grabber de l'ordinateur et installer le pilote à nouveau.



2. Open « joueur QuickTime », cliquez sur « Fichier \ Nouveau enregistrement vidéo » sur la barre de menu pour ouvrir la fenêtre de capture.

3. Après ouvrir la fenêtre de capture, cliquez sur « ∨ », Menu contextuel, sélectionnez « AV TO USB 2.0 » et « USB 2.0 MIC », l'image vidéo et le son sera émis (S'il vous plaît faites attention pour régler le volume) .





4. Click bouton REC, et vous pouvez enregistrer la vidéo maintenant.
